**Technology in Jordan**

Find out how people are using technology in Jordan to help children study.

Technology is helping children in Jordan study in many ways. Online learning platforms let pupils take free courses in subjects like Maths and Science. Many schools are also using tablets, e-readers and interactive whiteboards to make lessons more fun and interesting for pupils. Some schools even have coding workshops (where pupils learn to give instructions to computers so they can do things) and robotics clubs! And there are also a number of organisations that support education and technology in schools, like the Queen Rania Center for Education and Information Technology.

More children now have access to the internet all over Jordan. This means they can explore different cultures and make friends from around the world. Apps are also helping them with English and other languages.

**Part 1: True or False (Write the full answer)**

1. Technology is helping children in Jordan study in many ways
2. Online learning platforms let pupils take free courses in subjects like Maths and Science.
3. Schools in Jordan do not use interactive whiteboards to make lessons more fun.
4. Robotics clubs and coding workshops are not available in any Jordanian schools.
5. Having internet access means children cannot explore different cultures

**Part 2: Fill in the Blanks (Choose from the words in brackets)**

(interactive - coding - online - apps - internet)

1. Many schools are using \_\_\_\_\_ whiteboards to make lessons more fun.
2. In \_\_\_\_\_ workshops, pupils learn to give instructions to computers.
3. More children in Jordan now have access to the \_\_\_\_\_.
4. \_\_\_\_\_ are helping children learn English and other languages.
5. Pupils can take free courses through \_\_\_\_\_ learning platforms.

**Part 3: Multiple Choice (Choose the correct answer)**

1. What do online learning platforms let pupils do?
  - a) Play games
  - b) Take free courses
  - c) Watch movies
  - d) Buy books
2. Which technology are schools using to make lessons more fun?
  - a) Radios
  - b) Tablets and e-readers
  - c) Typewriters
  - d) Telephones
3. What do children learn in coding workshops?
  - a) How to cook
  - b) How to draw
  - c) How to give instructions to computers
  - d) How to sing
4. What can children do with internet access?
  - a) Explore different cultures
  - b) Only play games
  - c) Stop learning
  - d) Avoid making friends

**Part 4: Short Answer Questions (Answer in complete sentences)**

1. What examples of technology used in classrooms are mentioned in the text?
2. What is the purpose of robotics clubs in schools?
3. What is the main benefit of internet access for children in Jordan?

**Writing**

Write a review of a game or an app you like. Use the following prompts:

- What is the name of the game/app?
- What is it about?
- What are the good points?
- What are the bad points?
- Would you recommend it? Why?

### Example

TopCity is a fantastic game where you travel around a city and look for treasure. You have to solve problems and write instructions to move. The graphics are really good, and it helps you learn programming skills. The only bad point is that it isn't free. I would recommend it because it is fun and educational.
