Question 1

Read the text then answer the following question

Beluga whales are white whales that live in the Arctic Ocean. In winter, **they** stay in the open ocean, away from the sea ice. But some years ago, a group of them became trapped under the ice. There was only one hole in the ice where they could come up to breathe. But thousands of whales all needed to breathe at the same hole! It was an emergency!

1. Where do beluga whales live?
-
2. Why do beluga whales stay in the open ocean during winter?
-
3. What problem did the beluga whales face?
-
4. Why was the situation an emergency?
-

(True / False Questions):

- ☐ Beluga whales live in warm tropical waters.
-
- ☐ The trapped whales had many breathing holes in the ice.
-
- ☐ Beluga whales are white whales.
-
- ☐ The beluga whales were trapped because of sea ice.
-

(Answer:)
3. The whales were in danger because there was only _____ hole in the ice for them to breathe.
(Answer:)
4. Thousands of whales needed to use the same hole to _____.
(Answer:)

Question 2 Read the text then answer the following question

Beluga whales were frightened of the ship! Suddenly, the captain of the Moskva had an idea. He knew that dolphins liked music, so he started playing calming classical music loudly from the ship. When he was playing classical music, the whales moved closer to the ship! The Moskva started moving down the channel, stopped, and the captain played music. The whales came closer. The ship moved down the channel, stopped, and played music again. The whales followed. It took many days, but finally the Moskva and the whales reached the open ocean. The beluga whales were safe at last!
